

In the end of January the second winter round of the International Math Tournament "Mathematics without borders, was held. The tournament is for children among 8 – 14 years old from Bulgaria, Russia, Turkey, Kazakhstan, Uzbekistan, Indonesia and other countries. Twenty student from 2nd to 7th grade from "Ivan Vazov" Secondary school did the test. They received certificates for their participation and got points for the final standings. Christian Georgiev Ivanov – 7th grade awarded a medal for a third place, he was competing with more than 600 seventh-graders.

Congratulations on a superb performance and have good luck to all in the spring round.
