Christmas holidays are one of the most exciting and the most favorite celebrations for each family. Everyone has a sense of Christmas magic.

Students from High School "Ivan Vazov", Sopot have had an annual ritual, providing warmth and comfort in December in eager anticipation of the holiday. Despite the unusual, warm weather, the school has been decorated as usual with garlands, glittering balls, silver deer, colored lights, artificial snow, Santa Claus' house and shining in gold Christmas tree. They welcome students, teachers and guests every day.

The festive mood has been created by numerous initiatives. The beginning was laid by the choreographic classes, participating in the solemn lighting of the Christmas tree. A festive table for Christmas Eve has been ranked by the students of the EPA Cooking and recreated the tradition. Our students have taken part in the initiatives NS "Ivan Vazov-1871". Christmas cards of six graders Petya Chonova and Gabriella Karailanova were awarded in "My magical Christmas" competition. The third graders have participated with dignity in the game "Surva, surva and happy year" decorating surovachki, answering to questions in the thematic quiz, reciting poems and presenting folk dance.
